

# Pharmacy Services Bulletin

GNYHA  Services

eSynerGy 

**February 19, 2016**

Dear Valued Member,

GNYHA Services is pleased to announce a [direct agreement with The Forerunner Group for their RXTransparent Platform and professional services](#). This agreement is part of the support we provide to help members comply with the Drug Supply Chain Security Act transaction history, information, and statement (T-HIS) data implementation requirements for pharmacy providers, which go into effect on March 1.

RXTransparent is a cloud-enabled data application platform that can be configured to individual customer requirements such that T-HIS data from any source (wholesaler, specialty distributor, or direct purchase) can be received, indexed, stored, and retrieved from a single access point. RXTransparent provides the security of data ownership and the flexibility of movement among wholesalers and distributors without fear of data loss or data compromise. The annual facility subscription fees are tiered based on the number of facilities within a hospital group or system.

To help members learn more about these services, The Forerunner Group will host a webinar on Thursday, February 25, at noon. Please click [here](#) for webinar details.
